

BRPPRO4

- ✓ New feed system that pushes at center of rear yoke bar to eliminate crabbing
- ✓ Introducing our new variable speed DC motor which has a smaller frame which allows the operator to use more of the wheel before replacing it compared to the BRPPRO2 (saving you dollars)
- ✓ Using a DC motor removes the issue of converting 3 phase to single phase power
- ✓ DC motors are more durable and reliable with their main use being in CNC machines with many ON/OFF cycles with a Tight control of speed, under various loads.
- ✓ They are designed for operating in temperatures down to -40C in comparison to the BRPPRO2 which was -20C
- ✓ 115V / 1 PH / 60 Hz X1.5 A
- ✓ Shipping info - 1 CARTON 26" X 26" X 23" 84 LBS (weight to be confirmed)
